

Company Overview

Greenville Enterprises LLC is a Texas-based, Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in construction management, infrastructure development, materials supply, civil inspection services, and project delivery support for municipal, federal, aviation, commercial, and private-sector clients. Since its establishment in January 2022, the company has steadily built a reputation for delivering technically sound, schedule-driven, and quality-focused infrastructure solutions across Texas and beyond.

Greenville Enterprises LLC provides integrated services in construction management, civil infrastructure oversight, erosion control, pavement maintenance, roadway rehabilitation, utility coordination, drainage improvements, airfield construction support, landscaping, and engineering coordination. The company combines field expertise, regulatory compliance, and strategic project execution to ensure safe, efficient, and cost-effective project delivery.

The company operates with a commitment to operational excellence, public safety,

environmental stewardship, workforce integrity, and client satisfaction. Greenville Enterprises LLC continues to expand its footprint in municipal infrastructure, federal contracting, aviation support services, and large-scale civil construction management projects.

Mission Statement

To provide innovative, reliable, and high-quality infrastructure and construction management solutions that exceed client expectations while fostering sustainable development, operational efficiency, and long-term community impact.

Vision Statement

To become a nationally recognized leader in infrastructure development, construction management, municipal support services, and engineering coordination by delivering transformative projects with integrity, precision, and technical excellence.

Core Values

- Integrity & Accountability
- Excellence in Project Delivery

- Safety First Culture
- Innovation & Continuous Improvement
- Client-Centered Service
- Sustainability & Environmental Responsibility
- Workforce Development & Leadership

Core Service Areas

Construction Management

Greenville Enterprises LLC provides comprehensive construction management services for infrastructure, municipal, commercial, and federal projects. Services include scheduling, cost controls, subcontractor coordination, procurement management, quality assurance, field supervision, and project closeout.

Services Include:

- Construction Administration
- Project Scheduling & Coordination
- Cost Estimating & Budget Controls
- Contract Administration

- Site Supervision
- Project Documentation
- Change Order Management
- Risk Mitigation
- Construction Inspection Services
- QA/QC Management

Civil Infrastructure Services

The company supports public and private infrastructure initiatives involving transportation systems, drainage structures, roadway improvements, and utility infrastructure.

Capabilities Include:

- Roadway Reconstruction
- Drainage Improvements
- Utility Coordination
- Erosion & Sediment Control
- Stormwater Management
- Concrete Infrastructure
- Pavement Rehabilitation
- Sidewalk & ADA Improvements

- Culvert Installation
- Site Development

Aviation & Airfield Support Services

Greenville Enterprises LLC has experience supporting military and aviation infrastructure projects involving airfield grading, paving, striping, and rehabilitation.

Specialized Services:

- Airfield Grading
- Runway Rehabilitation
- Taxiway Improvements
- Joint Sealing
- Airfield Striping
- Asphalt & Concrete Repairs
- Airfield Pavement Maintenance
- Construction Oversight

Infrastructure Materials Supply

The company supplies construction and infrastructure materials to municipalities,

contractors, and government agencies throughout Texas.

Materials Supplied:

- Asphalt Emulsion
- Reinforced Concrete Pipes (RCPs)
- Concrete Masonry Products
- Stormwater Components
- Utility Infrastructure Materials
- Drainage Structures
- Pavement Materials
- Traffic & Safety Materials

Environmental & Erosion Control Services

Greenville Enterprises LLC provides environmentally compliant erosion control and stabilization services for public infrastructure and commercial developments.

Services Include:

- SWPPP Implementation
- Erosion Control Installation

- Sediment Management
- Vegetation Stabilization
- Silt Fence Installation
- Environmental Compliance Monitoring
- Stormwater Inspections

Certifications & Compliance

Greenville Enterprises LLC maintains industry-recognized certifications and safety standards that support regulatory compliance and project excellence.

Certifications Include:

- Service-Disabled Veteran-Owned Small Business (SDVOSB)
- OSHA-30 Certified
- SWPPP Certified
- USACE Construction Quality Management (CQM)
- EMS Compliance Training
- Construction Safety Compliance Standards

Current, Previously Completed & Supported Projects

City of Fort Worth – Asphalt Emulsion Supply Contract

Contract Value: Approximately \$1.1 Million

Greenville Enterprises LLC successfully supported municipal roadway maintenance operations through the supply and delivery of asphalt emulsion materials used in pavement preservation and roadway rehabilitation initiatives.

Scope Included:

- Material Procurement
- Logistics Coordination
- Timely Delivery Operations
- Municipal Compliance Support
- Quality Material Verification

City of Austin – Concrete Masonry Supply Contract

Contract Value: Approximately \$758,000

The company supplied concrete masonry and utility infrastructure materials supporting public infrastructure and

municipal operations projects throughout Austin, Texas.

Services Included:

- Infrastructure Material Supply
- Delivery Coordination
- Municipal Procurement Compliance
- Utility Construction Support

City of Austin – Reinforced Concrete Pipe (RCP) Supply

Contract Value: Approximately \$342,000

Greenville Enterprises LLC supplied reinforced concrete pipe systems and drainage infrastructure materials for stormwater and utility improvement projects.

Scope Included:

- RCP Procurement & Delivery
- Drainage Infrastructure Support
- Municipal Utility Coordination
- Stormwater Infrastructure Supply

Watershed Protection / Austin Energy Infrastructure Support

The company provides specialized stormwater and concrete manhole infrastructure components supporting Watershed Protection and Austin Energy operations in Austin, Texas.

Scope Included:

- Reinforced Concrete Manhole Components
- Utility Infrastructure Materials
- Delivery & Logistics Coordination
- Public Utility Support Services

City of Southlake, Texas – Erosion Control Project

Greenville Enterprises LLC managed erosion control and environmental stabilization operations supporting municipal infrastructure protection initiatives.

Scope Included:

- Erosion Mitigation
- Sediment Control

- Environmental Compliance
- Stormwater Protection
- Site Stabilization

Horse Creek Farm – Crowley, Texas

Drainage Improvement Project

The company supported drainage improvement initiatives involving grading, drainage coordination, and stormwater management solutions.

Scope Included:

- Drainage Rehabilitation
- Stormwater Management
- Site Coordination
- Infrastructure Improvements

Crowley, Texas – Roadway Reconstruction Project

Greenville Enterprises LLC provided roadway reconstruction support services involving pavement restoration and infrastructure coordination.

Scope Included:

- Roadway Rehabilitation
- Construction Oversight
- Scheduling Coordination
- Quality Assurance
- Traffic Coordination

Sheppard Air Force Base – Wichita Falls, Texas

Airfield Infrastructure Support

The company participated in airfield grading and paving support operations associated with military aviation infrastructure improvements.

Scope Included:

- Airfield Grading
- Pavement Rehabilitation
- Joint Sealing
- Airfield Striping
- Construction Coordination

Safety Commitment

Safety remains a foundational component of Greenville Enterprises LLC operations. The company maintains a proactive safety

culture emphasizing workforce training, hazard mitigation, compliance monitoring, and continuous improvement.

Safety Practices Include:

- Daily Safety Briefings
- OSHA Compliance Enforcement
- Site Hazard Assessments
- Incident Prevention Planning
- PPE Compliance Monitoring
- Environmental Protection Protocols
- Quality & Safety Audits

Why Greenville Enterprises LLC

Greenville Enterprises LLC distinguishes itself through:

- Proven infrastructure project experience
- Strong municipal and federal market knowledge
- Veteran-led operational leadership
- Commitment to quality and safety

- Reliable project execution
- Client-focused communication
- Technical and field expertise
- Flexible and scalable project delivery capabilities

Strategic Growth Objectives

The company continues to pursue growth in:

- Municipal Infrastructure Programs
- Federal Construction Opportunities
- Aviation Infrastructure Projects
- Public Utilities Support Services
- Smart Infrastructure Integration
- Environmental & Stormwater Solutions
- International Infrastructure Partnerships
